Speaker: Oh! Staphylococcus!
Where did you come from?
Of all the germs, bugs, viruses, did you
have to pick on me?

pyogenic bacteria of the genus Staphylococcus, occurring in grapelike clusters

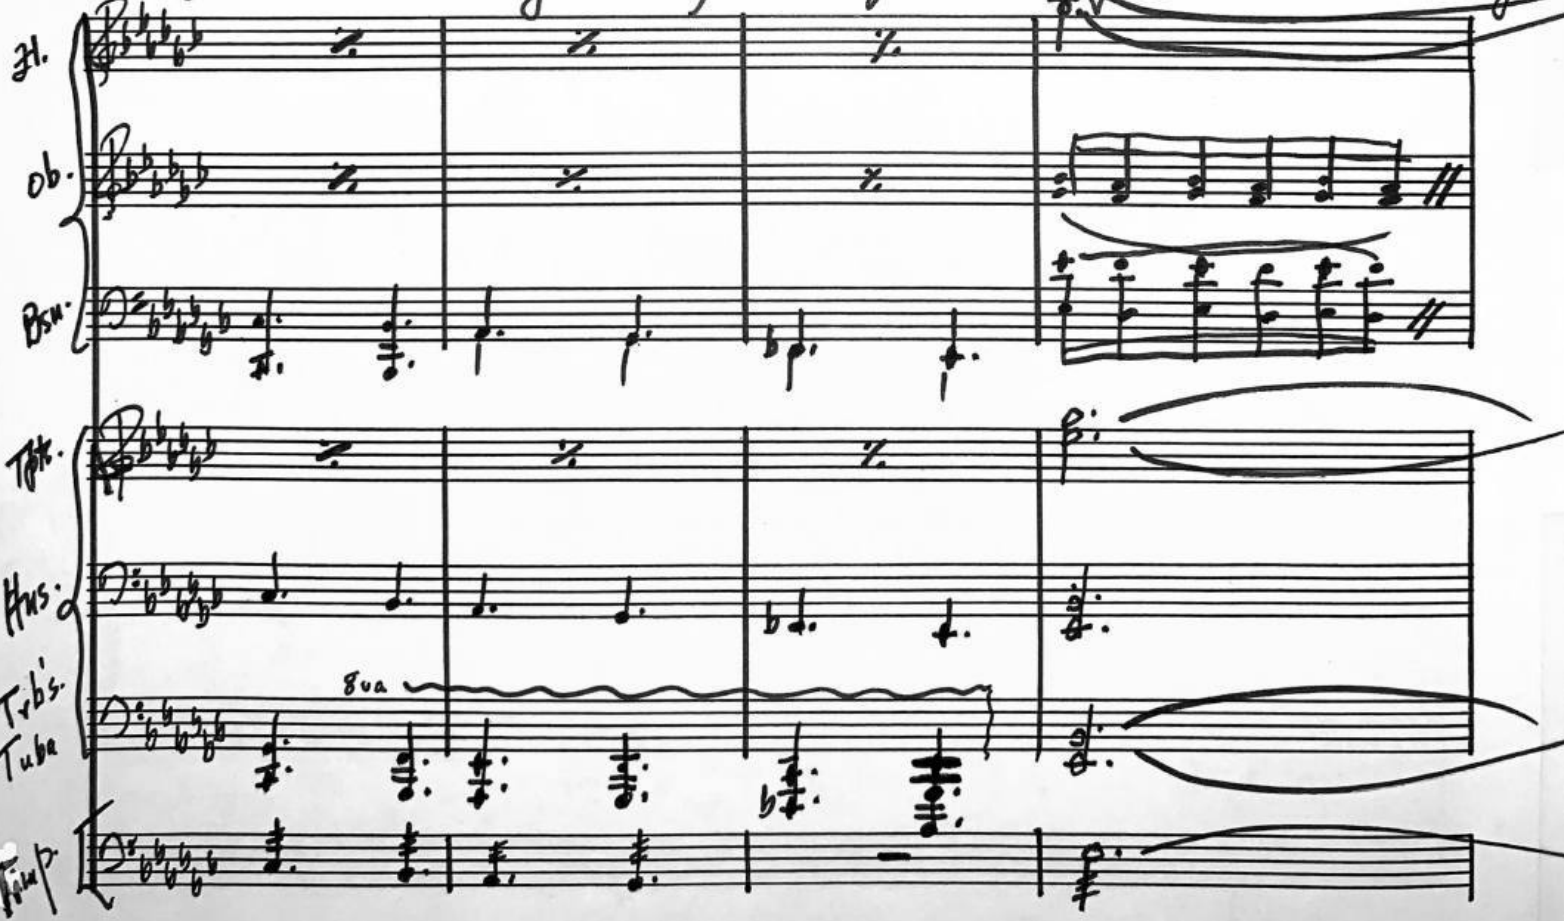

and causing boils, septicemia, and other infections. Also called "staph..."

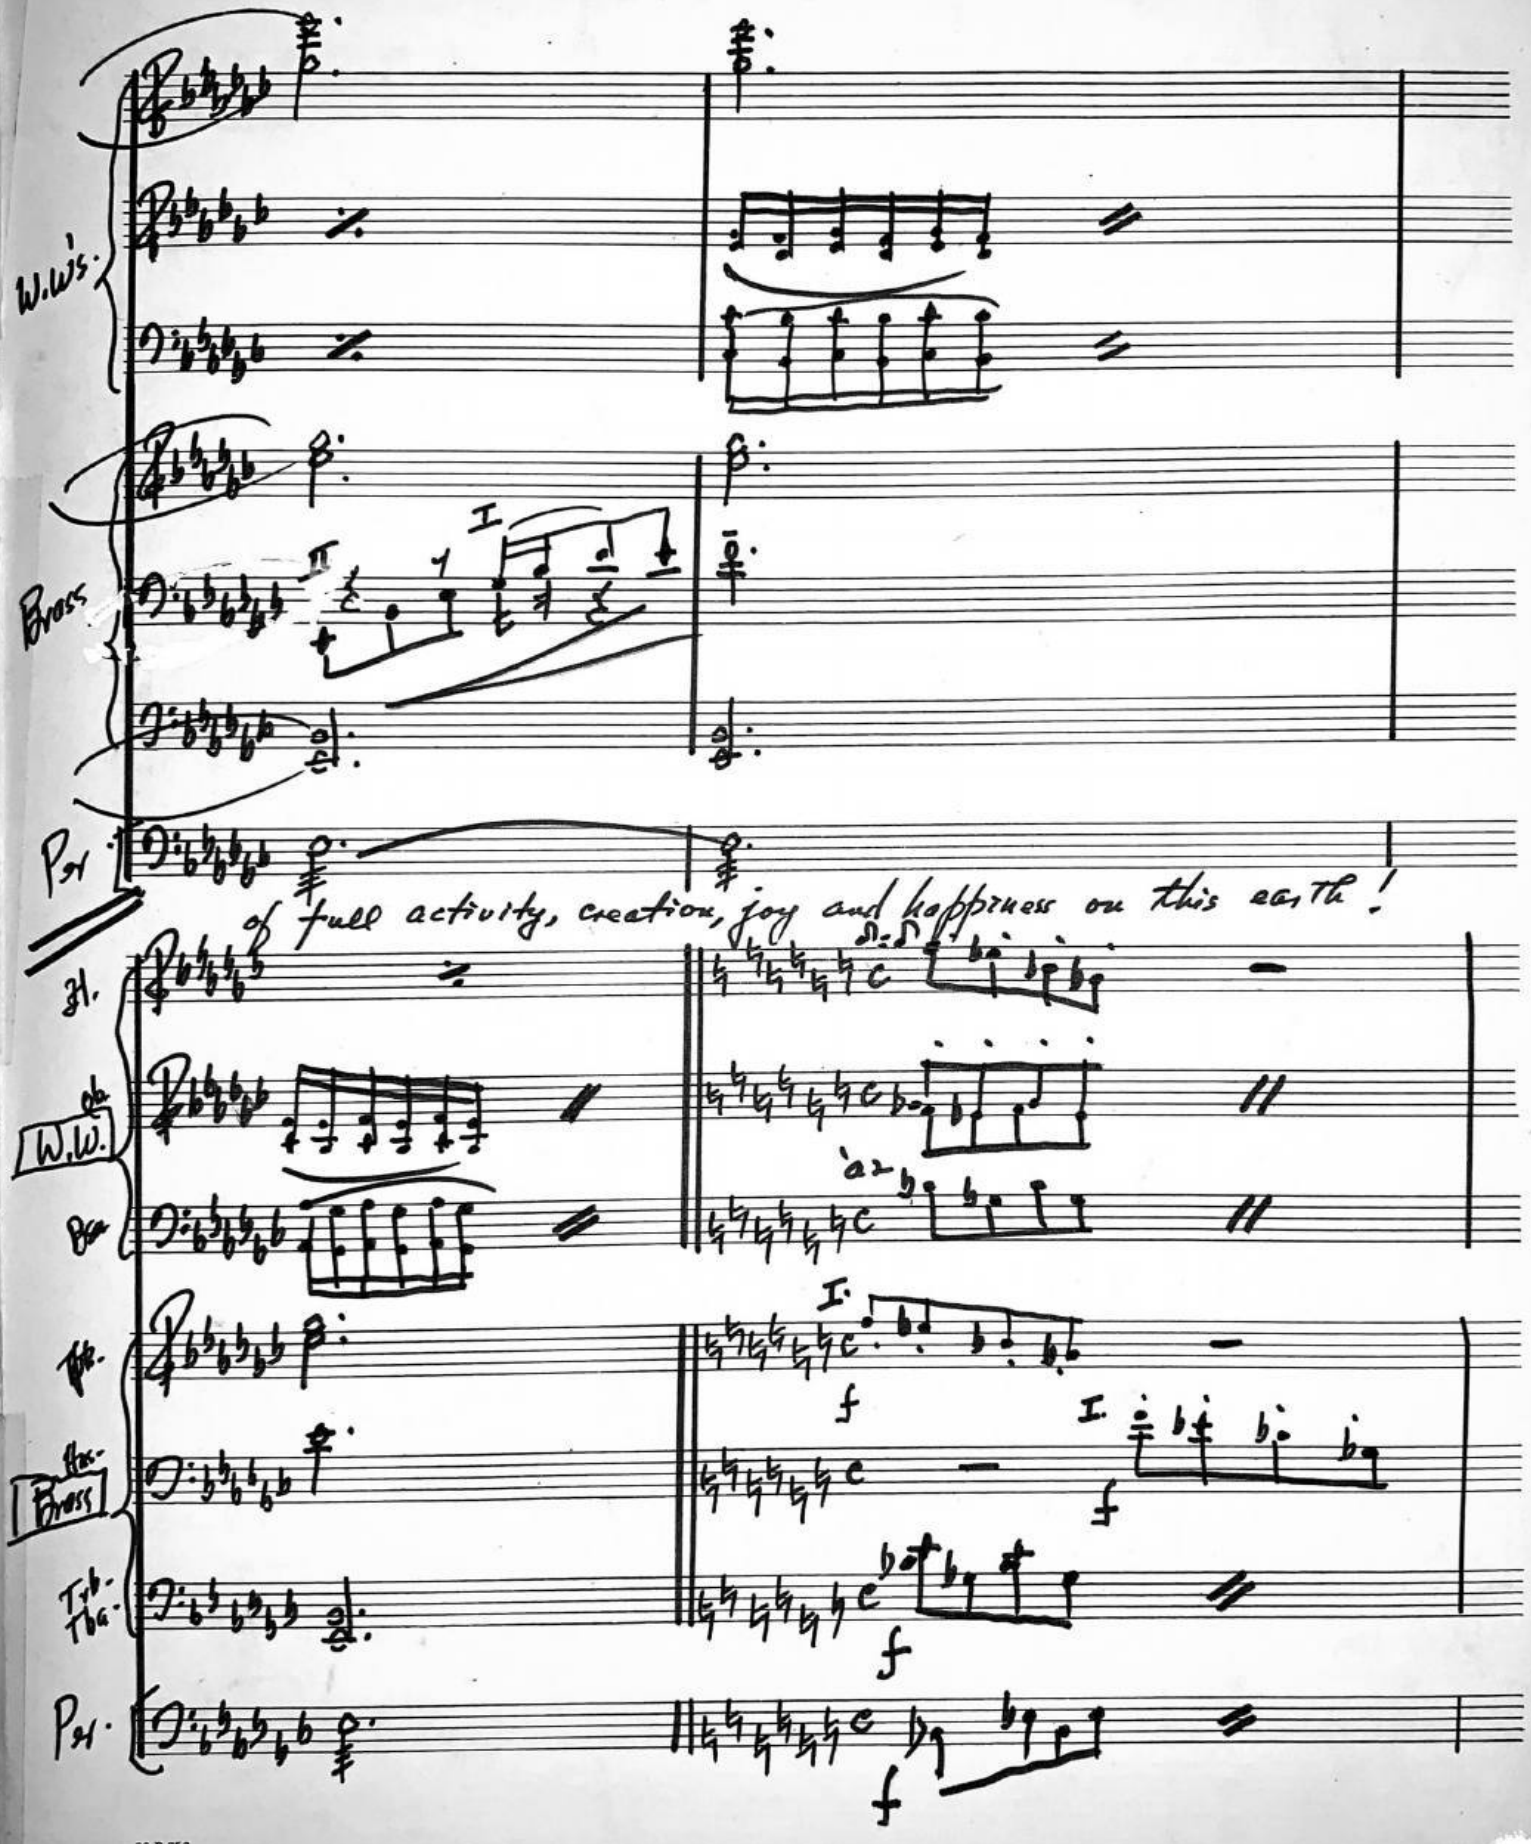

6. How cute! How funny! How deadly! Intra-venous injections of

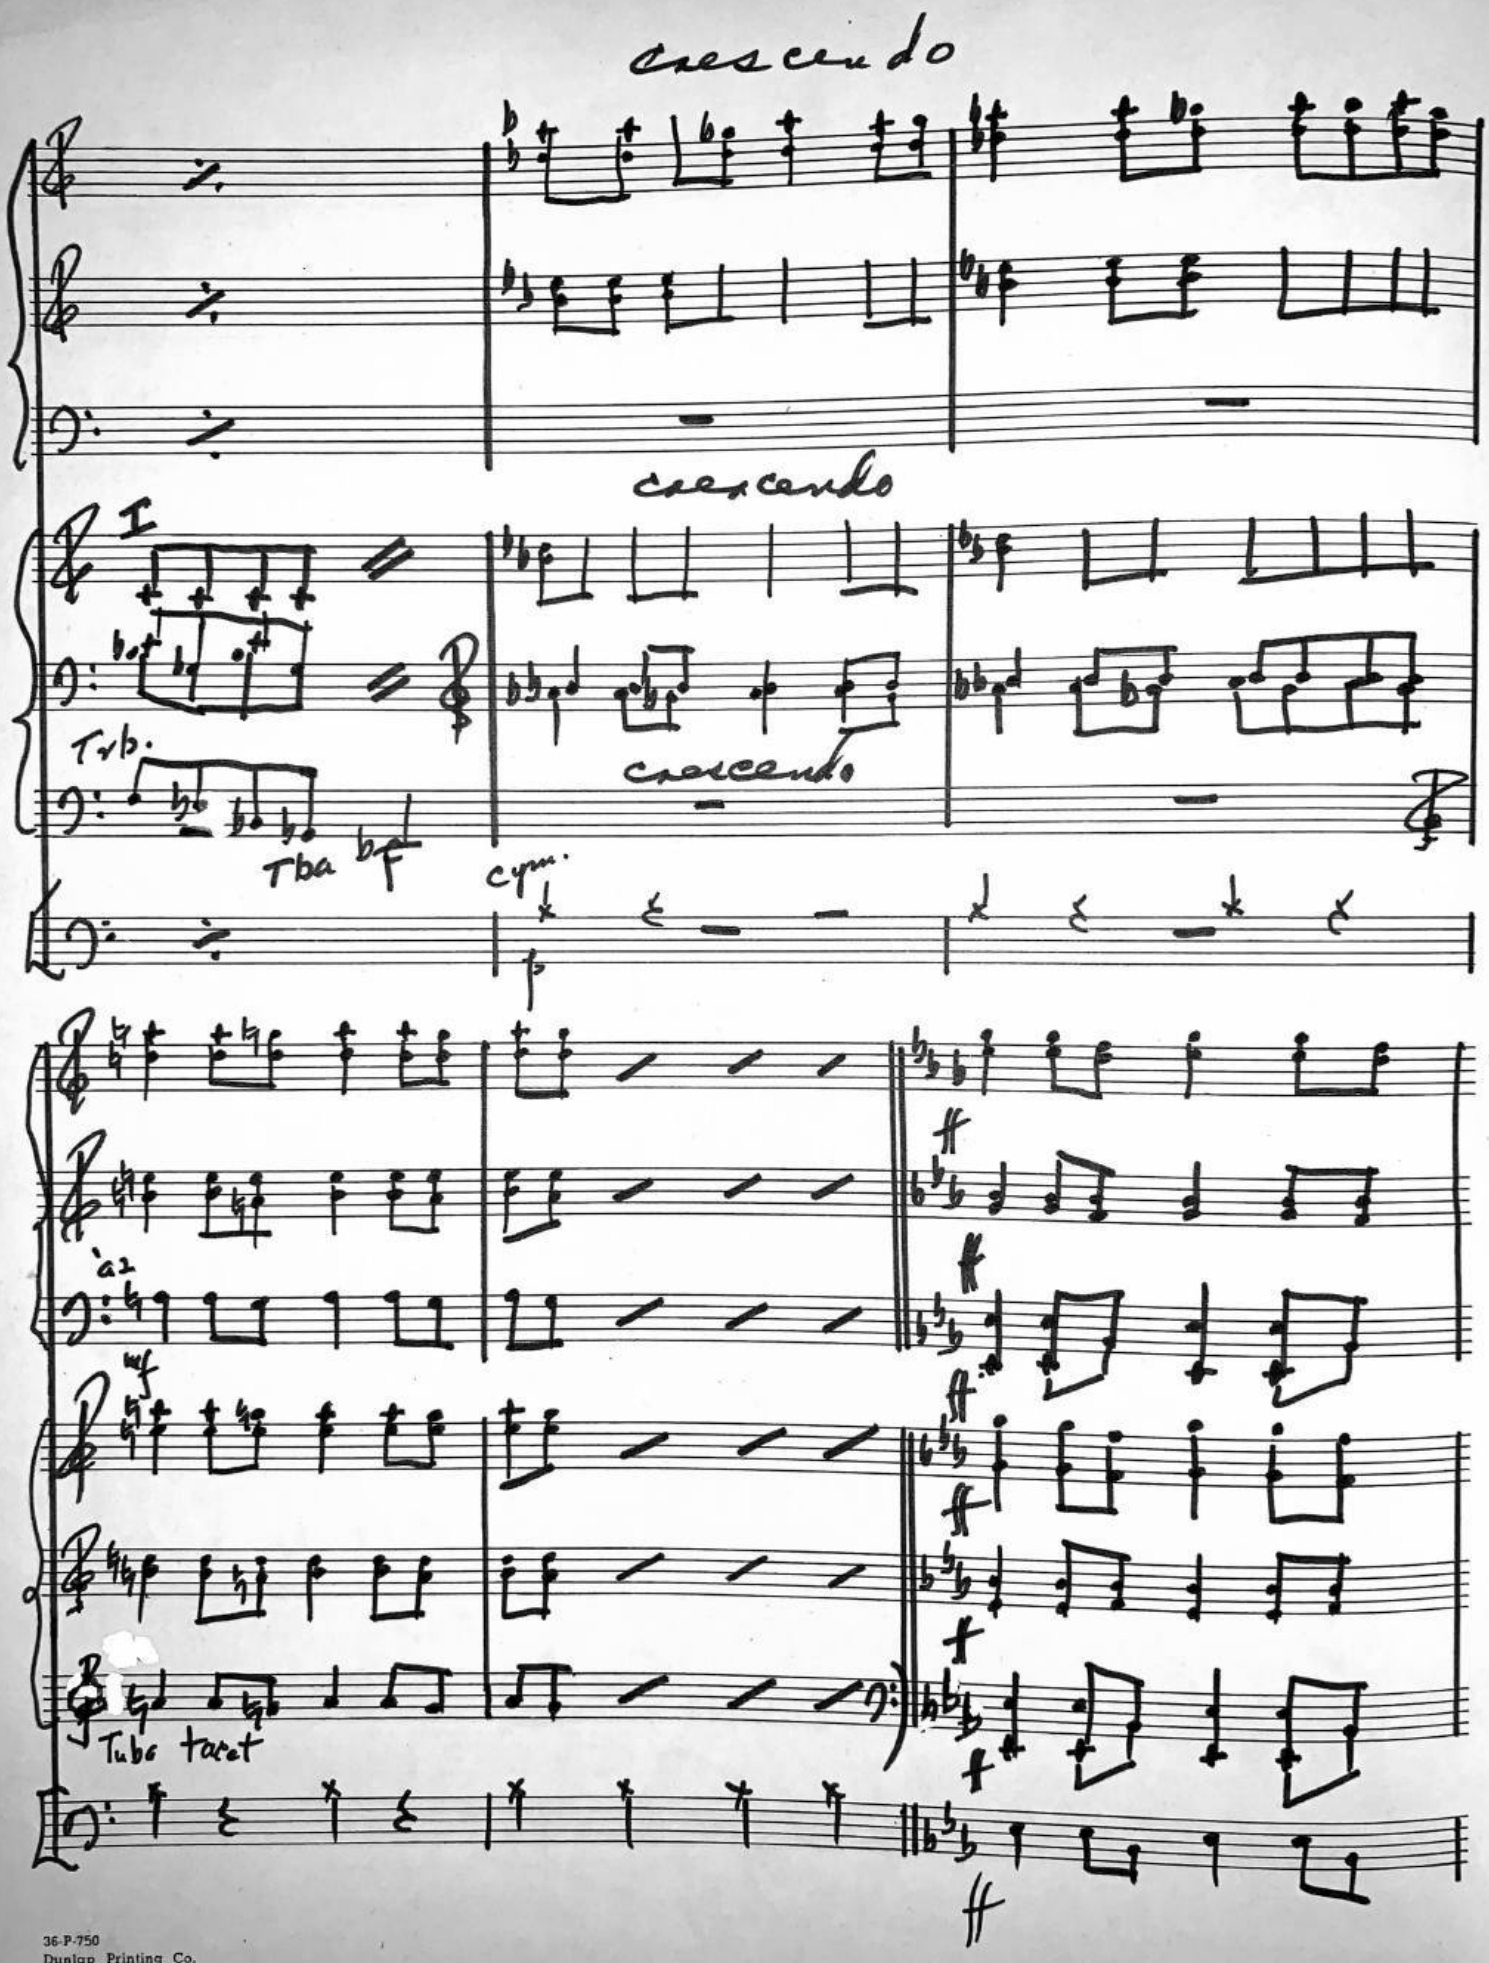

medications to destroy the infamous bugs. How lovely! All done to bring
